

Healthcare

1. Disease Prediction System
2. Medical Image Analysis
3. Patient Health Monitoring
4. Predicting Heart Disease
5. Breast Cancer Detection
6. Diabetes Prediction
7. Chronic Disease Management
8. Drug Discovery using ML
9. Medical Diagnosis Chatbot
10. Personalized Treatment Recommendation
11. Predicting Hospital Readmission
12. Medical Data Visualization
13. Brain Tumor Detection
14. Health Insurance Fraud Detection
15. Predicting Stroke Occurrence
16. Seizure Prediction System
17. Predicting Surgery Outcomes
18. Early Disease Detection using Wearables
19. Medical Text Summarization
20. Patient Queue Management

Finance

21. Stock Price Prediction
22. Credit Scoring System
23. Fraud Detection in Banking
24. Algorithmic Trading
25. Risk Assessment
26. Customer Segmentation
27. Loan Default Prediction
28. Financial News Sentiment Analysis
29. Portfolio Management
30. Credit Card Fraud Detection
31. Personal Finance Management
32. Predicting Bankruptcy
33. Real Estate Price Prediction
34. Automated Financial Advisor
35. Churn Prediction for Banks
36. Investment Recommendation System
37. Loan Eligibility Prediction
38. Predicting Currency Exchange Rates

- 39. Invoice Processing Automation
- 40. Financial Document Classification

E-commerce

- 41. Product Recommendation System
- 42. Customer Sentiment Analysis
- 43. Sales Forecasting
- 44. Customer Segmentation
- 45. Personalized Marketing
- 46. Dynamic Pricing System
- 47. Churn Prediction
- 48. Inventory Management
- 49. Product Review Analysis
- 50. Customer Lifetime Value Prediction
- 51. Visual Search for Products
- 52. Demand Forecasting
- 53. E-commerce Chatbot
- 54. Fraud Detection in Transactions
- 55. Predicting Customer Behavior
- 56. Recommendation System for New Users
- 57. Price Optimization
- 58. Cross-sell and Upsell Recommendation
- 59. Product Categorization
- 60. Predicting Return of Products

Education

- 61. Student Performance Prediction
- 62. Intelligent Tutoring System
- 63. Adaptive Learning System
- 64. Automated Essay Scoring
- 65. Plagiarism Detection
- 66. Course Recommendation System
- 67. Virtual Classroom Analysis
- 68. Student Dropout Prediction
- 69. Skill Gap Analysis
- 70. Online Exam Proctoring
- 71. Educational Content Recommendation
- 72. Personalized Learning Path
- 73. Early Detection of Learning Disabilities
- 74. Learning Style Detection
- 75. Automated Question Generation
- 76. Student Engagement Analysis

77. Academic Advisor Chatbot
78. Predicting Graduation Rates
79. Intelligent Attendance System
80. Career Path Prediction

Retail

81. Sales Prediction
82. Customer Behavior Analysis
83. Inventory Optimization
84. Market Basket Analysis
85. Personalized Shopping Experience
86. Demand Prediction
87. Customer Segmentation for Retail
88. Store Layout Optimization
89. Sentiment Analysis of Product Reviews
90. Dynamic Pricing for Retail
91. Product Placement Optimization
92. Retail Chatbot
93. In-store Customer Analytics
94. Recommending Similar Products
95. Predicting Product Returns
96. Store Traffic Prediction
97. Automated Checkout System
98. Stockout Prediction
99. Retail Trend Analysis
100. Product Recommendation for Physical Stores

Social Media

101. Sentiment Analysis of Tweets
102. Fake News Detection
103. Social Media Trend Analysis
104. Automated Content Moderation
105. Influencer Identification
106. Social Media Recommendation System
107. Topic Modeling
108. Hashtag Recommendation System
109. Social Media Bot Detection
110. Predicting Virality of Posts
111. Spam Detection in Social Media
112. Image Captioning
113. User Engagement Prediction
114. Sentiment Analysis of Social Media Campaigns

115. Emotion Detection in Text
116. Personalized Feed Recommendation
117. Event Detection from Social Media
118. Social Media Analytics Dashboard
119. Predicting User Demographics
120. Social Media User Segmentation

Natural Language Processing (NLP)

121. Text Summarization
122. Machine Translation
123. Named Entity Recognition (NER)
124. Question Answering System
125. Sentiment Analysis
126. Chatbot Development
127. Speech Recognition
128. Text Generation
129. Document Classification
130. Part-of-Speech Tagging
131. Text Clustering
132. Fake News Detection
133. Language Modeling
134. Automatic Text Correction
135. Emotion Detection in Text
136. Intent Detection
137. Topic Modeling
138. Text Similarity Analysis
139. Text-based Recommendation System
140. Multilingual Sentiment Analysis

Computer Vision

141. Object Detection
142. Facial Recognition System
143. Image Classification
144. Image Segmentation
145. Handwritten Digit Recognition
146. Pose Estimation
147. Traffic Sign Recognition
148. Autonomous Vehicle Navigation
149. Image Super-Resolution
150. Video Summarization
151. Gesture Recognition
152. Image Style Transfer

153. Action Recognition in Videos
154. Medical Image Analysis
155. Scene Understanding
156. Image Captioning
157. Optical Character Recognition (OCR)
158. Face Emotion Recognition
159. 3D Object Reconstruction
160. Visual Question Answering

Transportation

161. Traffic Prediction
162. Route Optimization
163. Autonomous Driving
164. Vehicle Telematics Analysis
165. Public Transport Optimization
166. Ride-sharing Demand Prediction
167. Accident Prediction and Prevention
168. Fleet Management
169. Smart Traffic Signal Control
170. Parking Space Detection
171. Vehicle Speed Prediction
172. Real-time Traffic Monitoring
173. Predicting Maintenance Needs
174. Logistics Optimization
175. Demand Forecasting for Transport Services
176. Drone Delivery Route Planning
177. Passenger Flow Prediction
178. Toll Collection Automation
179. Freight Cost Prediction
180. Vehicle Tracking System

Miscellaneous

181. Music Recommendation System
182. Movie Recommendation System
183. Weather Prediction
184. Crime Prediction
185. Energy Consumption Forecasting
186. Smart Home Automation
187. Predicting Box Office Revenue
188. Sports Performance Analysis
189. Real-time Translation App
190. Wildlife Monitoring System

191. Disaster Prediction and Management
192. Smart City Planning
193. Climate Change Analysis
194. Food Recommendation System
195. Language Detection
196. Agricultural Yield Prediction
197. Customer Support Chatbot
198. Anti-Money Laundering Detection
199. Recommendation System for Restaurants
200. Personalized Fitness Recommendation
